Spring 2 Newsletter

Secondary Department

A round up of Spring 1: Post 16 – Life after Cedar

Throughout Careers Week this half term, each of the children were invited to listen to and ask questions of representatives from a number of different colleges and Post 16 providers. They were given the opportunity to consider what life after Cedar may be like as they continue their educational journey. The colleges talked about the difference in subjects and timetables at Post 16, what campuses were like, what accreditations were on offer, what support is available and their enrichment opportunities. The children all listened intently and asked our visitors really thoughtful questions that showed their eagerness to learn about what comes next for them. The representatives from the colleges all commented on how well the children listened and what great, forward thinking questions they had for them. Following the visits, the curiosity and excitement continued with some really positive conversations in class. We were really proud of how engaged everyone was across the week!

We enjoy inviting different colleges in during our 'Post 16 – Life after Cedar' Careers Week and thank this year's attendees for coming to share their settings with us this year.

STEPS TO SUCCESS

Careers Week

Spring 2

Week Beginning 24th March

The theme for Spring 2 is

'Employable Me' – The Labour Market

What's coming up in Spring 2?

'Employable Me' – The Labour Market

Teaching children about the labour market is important because it helps them explore career options and connect education to real-world jobs. It encourages the development of essential skills like communication and adaptability. This knowledge prepares children for future career choices and promotes informed decision-making. At Cedar, we will be looking at the services we interact with, the jobs within them and the skills we have or need to develop that would mean we could do those jobs too.

What you can do to help: Employability

When you are out and about in the community, look at different jobs that people are doing that impact upon you and your family.

Talk about what types of skills those jobs need and why those jobs are important in society.
